

Companies' workforces are rapidly moving towards working remotely and online, and Ascent Solutions is assisting them to make the transition as smooth and secure as possible. **We are reacting within hours in some cases, bolstering companies' efforts to continue to operate during and after the COVID-19 pandemic.**

WITHIN 2-4 HOURS

- **BCP Support** - Many companies are executing their Business Continuity Plans during this outbreak. Ascent can assist with implementing your BCP or help you rapidly develop one which addresses your most immediate needs.
- **Backfill Support** - While you reallocate your resources to support your company's COVID-19 response, let us keep your projects going. When you're ready to get back to business-as-usual, your projects will still be on track.

WITHIN 24 HOURS

- **Remote Work Technology with Microsoft Teams** - Whether you've recently deployed Teams and need assistance securing it for remote connectivity, you haven't yet deployed and need a partner to assist with an escalated deployment strategy, or your users need more education to drive fast adoption, Ascent's team of technical consultants and change managers can help.
- **Rapid Virtual Desktop** - Our team can quickly evaluate your current VDI and determine how best to help out, including immediate implementation of Ascent's unique solution to quickly expand remote worker connectivity in the cloud - offering employee access from almost any device to a secure and supported Windows 10/7 workstation.

- **Teams People Management Framework** - Ascent can help your rapid deployment and adoption of Teams as your workforce moves remote on short notice via Microsoft's new People Management Framework.
- **Remote Technology Advisory Services** - With our Remote Access Advisory service, and our Rapid Conditional Access offering, Ascent can help you configure your environment so that remote users and data are secure, regardless of where and on what device they are performing work.
- **Privileged Remote Access with BeyondTrust** - As you respond to the immediate demand to work remotely, Ascent can assist with your Privileged Remote Access solution from BeyondTrust. Let us help you quickly leverage BeyondTrust's powerful security suite.
